

# Zoom System Photos

Control System to the left plus Projector and Powered Speaker. Note the remote visitor son the screen and of course coffee and goodies in the room behind the screen.

Gator Case, microphones, laptop and monitor.

Projector and Powered Speaker

To the left is the first use of the completed system. Note the presenter is on the screen and is being sent to all members via Zoom.

Not including the time required to arrange the chairs and set up the coffee, the system setup takes about 20 minutes.
